## **Description**

JavaScript developer with 2 years of student experience, and 1 year active in the industry. High familiarity with React.js, React Native, Redux, Nest.js and Typescript. Explorer and passionate about new adventures, he lived and worked for 1 year in New Zealand to make friends and improve the English language. He works mainly as a freelancer and is looking for a good project to embrace and feel part of. He worked on the *Prismapp* project, and currently develops the *Cashback da Cidade* platform. He is dedicated, communicative, knows how to develop without supervision and also helps colleagues.

## **Work Experiences**

### **Node Developer**

May 2021-July 2021 – **15Segundos**

- *15Segundos* App Backend Creator;
- First freelance professional project;
- Use FFMPEG video manipulation library to rotate 9:16 and crop the width of videos in 15 seconds;
- Unfortunately, the project has not yet been launched due to the desire of investors.

### **FullStack Developer**

August 2021-October 2021 – **Betabit Dev**

- PHP programmer, Laravel, JavaScript, jQuery, React.js, Vue.js, Flutter;
- He joined as an intern and got 2 promotions in 2 months;
- Worked on the TUDU project, developed by professionals from PUC-PR (the project has a backend in Nest.js, an app in Flutter and a dashboard in React.js);
- <https://www.linkedin.com/company/betabit-dev/>

December 2021-February 2022 – **Prismapp**

- Alerts application that sends registered users information about potential risk areas;

- Languages: JavaScript and Typescript;
- Developed with React Native + Redux and Nest.js;
- Makes use of geolocation and Firebase Cloud Messaging;
- <https://www.linkedin.com/company/prismapp-brasil/about/>

#### February 2022-now – **Cashback da Cidade**

- Cashback app for local merchants;
- Languages: JavaScript and Typescript;
- Developed with React Native + Redux, React.js and Nest.js;
- It makes use of geolocation;
- <https://cashbackdacidade.com.br/>
